## CAREER SUMMARY

---

- **Core competency** in algorithms, software engineering, formal methods, program verification, and embedded systems.
- **71 reviewed publications**, including 16 journal papers and 55 workshop/conference contributions, h-index 13, **Best Paper Award** at SBC SBESC'15 and ACM SAC'08, **Distinguished Paper Award** at ACM ICSE'11, and 15 awards from the international competition on software verification (SV-COMP) 2012-2016.
- **Developer** of XMPM, STB225, ESBMC, ESBMC-GPU, ESBMC<sup>QtOM</sup>, BMCLua, and DSVerifier tools.
- Active **international research collaborations** with University of Southampton (UK), University of Stellenbosh (South Africa), and Federal University of Amazonas (Brazil).
- Proven track record of securing **research funding** from Samsung, Nokia Institute of Technology, CNPq, FAPEAM, British Council, and Royal Society (career total in excess of BRL8,286,83 or USD3,149,030).
- **Research team leader** (one PhD, four MSc, and four BSc students), acted as course leader of Electrical/Electronics Engineering from 2011 to 2015.
- **Permanent member** of the Graduate Program in Electrical Engineering and Collaborator of the Graduate Program in Informatics at the Federal University of Amazonas.
- **Strong software project management and development skills** with full life-cycle exposure.

## PROFESSIONAL EXPERIENCE

---

**University of Oxford / DiffBlue** July 2016 - Present  
*Researcher in Verification of Embedded Systems / Research Engineer* Oxford, UK

- Extend an existing abstract interpretation framework for simplifying and verifying (*goto*) programs.
- Develop a tool to synthesize digital control systems with uncertainties.
- Extend the CProver framework to support exception handling.
- Fix issues in different components of the CProver framework (*e.g.*, coverage, slice).
- Assistance in the supervision of post-graduate students working on related projects.
- Participation in regular meetings with colleagues and industrial partners in Oxford.

**Federal University of Amazonas / CETELI** September 2009 - Present (unpaid leave)  
*Adjunct Professor / Researcher* Manaus, Brazil

- Continued work on ESBMC, which is an award-winning SMT-based context-bounded model checker for C programs.
- Continued work on program verification, developed approaches to verify C/C++ programs via mathematical induction, discrete-time systems (digital filters and controllers), and the Lua programming language.
- Developed and delivered undergraduate and graduate modules on algorithms, software verification, real-time systems, digital systems, and embedded systems.

- Course Leader of Electrical Engineering from 2011 to 2015, including the sub-areas of Electronics, Telecommunications, and Electric Power Systems.
- Leader of a research team with one Ph.D. student, four M.Sc. students, and four B.Sc. students.
- Secured competed research funding from Samsung, Nokia Institute of Technology, CNPq, FAPESP, British Council, and Royal Society.

**Science & Technology Center for the Industrial Pole of Manaus**      March 2007 - September 2008

*Set-top Box Software Engineer*

*Manaus, Brazil*

- Development of the Linux drivers for the ISDB-T (Brazilian market) tuner and DVB-T (European market) tuner and demodulator silicon chips.
- Port of an ATSC-T (US market) tuner driver to a digital TV platform (Set-top Box).
- Development and integration of the DVB-S2 tuner used in satellite applications into the Linux user space.
- Port of an IPTV middleware, development of software applications, and a Video on Demand portal for the Set-top Boxes of NXP.
- Conception and implementation of automated unit and functional tests for the Linux device drivers via unit test framework tools and shell scripts (test automation).
- Coach customers to develop/customize software applications in digital TV platforms.
- Involved in several activities related to IP Set-top Box development at NXP semiconductors from San Jose (USA) and Southampton (England).

**BenQ-Siemens Eletroeletrônica S.A**

January 2005 - March 2007

*Software Engineer*

*Manaus, Brazil*

- Requirements definition, project planning, and tracking focused on features of the linux Mobile Phone Manager (XMPM). The features under coordination included GPRS, help system, connectivity, software installation, phone settings, localization, and internationalization.
- Responsible for following-up progress and status of the features developed by different partners (deliverables, integration status, test status, defects, and change requests) and reporting status to the project leader.
- Configuration management planning, change management, version and release management, build management, and bug tracking process of the linux Mobile Phone Manager (XMPM) project for generations 75 and 85 of Siemens Mobile Phones.

**Institut fuer Automatisierungs- und Softwaretechnik**

September 2003 - March 2004

*Trainee*

*Stuttgart, Germany*

- Microcontroller programming, development, and implementation of interface circuits for hardware transducers.
- Integration of a real-time operating system (uCOS-II) and a bluetooth based communication into the microcontroller M16C from Renesas.
- Design and modeling of electronic circuits with the Eagle tool.

## EDUCATION

**University of Southampton**

*May 2011*

Ph.D. in Computer Science.

Thesis: *SMT-Based Bounded Model Checking of Multi-threaded Software in Embedded Systems.*

Supervisor: Prof. Dr. Bernd Fischer.

Scholarship holder of ORSAS/ECS.

M.Sc. in Informatics.

Dissertation: *An Agile HW/SW Development Methodology for Embedded Systems*.

Supervisor: Prof. Dr. Raimundo S. Barreto.

B.Sc. in Electrical Engineering.

Project: *Developing Real-Time Applications with LEGO Mindstorms*.

Scholarship holder of CAPES/DAAD from 03/2003 to 03/2004, in order to attend classes of the MSc on Information Technology at the University of Stuttgart (Germany).

Overall GPA: 8.313

## GRANTS

---

1. “*DSVerifier: A Bounded Model Checking Tool to Verify Digital Systems with Uncertainties*”, EPSRC Impact Acceleration Account, 2016-2017, GBP 8,462 (or USD 11,141) in collaboration with Prof. Daniel Kroening from University of Oxford.
2. “*Verification of C/C++ Programs Based on Multi-Core Processors*”, Nokia Institute of Technology, 2014-2016, BRL451,231 (or USD171,594).
3. “*Hardware and Software Verification Based on Mathematical Induction for Embedded Systems*”, Amazonas State Research Funding Agency, 2014-2016, BRL249,853 (or USD95,014).
4. “*SMT-based Bounded Model Checking of Multi-threaded Programs*”, British Council, 2014-2015, GBP3,000 (or USD4,554).
5. “*Continuous Verification of C++ Programs Using SMT-based Bounded Model Checking*”, Nokia Institute of Technology, 2011-13, BRL287,631 (or USD109,380).
6. “*SMT-Based Bounded Model Checking Timed LTL Properties for Embedded Software*”, Royal Society International Exchange Grant, 2011-13. GBP11,600 (or USD17,609) in collaboration with Prof. Bernd Fischer from University of Southampton.
7. “*Verification of Temporal Properties in Embedded Software using Satisfiability Modulo Theories*”, National Centre for Scientific and Technological Development, 2013-2016, BRL14,000 (or USD5,324).
8. “*Research and training of human resources, at undergraduate and graduate courses, in the areas of industrial automation, software development for mobile devices, and digital TV*”; Samsung / Institute of Development in Informatics, 2013-2016, BRL7,190,550 (or USD2,734,414) in collaboration with Dr. Cícero Costa, Dr. Marly Costa, Dr. João Chaves Filho, Dr. Vicente Lucena Jr., Dr. Andre Cavalcante, and Dr. Waldir Sabino Jr. from Federal University of Amazonas.

## TEACHING

---

### Undergraduate level

- *Computer Organization and Design*, Federal University of Amazonas, from 2013 to 2015.
- *Advanced Programming*, Federal University of Amazonas, 2011, 2013.
- *Real-Time Programming*, Federal University of Amazonas, from 2011 to 2015.
- *Computer Networks*, Federal University of Amazonas, 2009.
- *C++ Programming*, Federal University of Amazonas, 2008.
- *Introduction to Algorithms*, Federal University of Amazonas, 2007.

### Graduate level

- 
- *Verification of Software and Systems*, Federal University of Amazonas, from 2014 to 2016.
  - *Algorithms for Automation and Systems*, Federal University of Amazonas, from 2013 to 2015.
  - *Real-Time Systems*, Federal University of Amazonas, from 2011 to 2013.
  - *Design and Analysis of Algorithms*, Federal University of Amazonas, 2011.
  - *Embedded Systems and Linux for Digital TV*, Baptist Superior College of Amazonas, 2008.

## STUDENTS

---

### Ph.D. Students (current)

- Alessandro Bezerra Trindade (2015-2019). *Applying SMT-based Verification to HW/SW Partitioning for Embedded Systems with Many Cores* (supervisor).

### M.Sc. Students (current)

- Raimundo Williame Rocha de Melo (2015-2017). *Model Checking Embedded C Software using k-Induction and Invariants*.
- Phillipe Arantes Pereira (2016-2018). *SMT-Based Context-Bounded Model Checking for CUDA Programs*.
- Lennon Corrêa Chaves (2016-2018). *Verifying Fixed-point Digital Controllers via State Space Representation*.
- Higo Ferreira Albuquerque (2016-2018), *Indoor Transportation System Applied to Intralogistics using Unmanned Aerial Vehicles with Optimal Planning Mission*.

### Ph.D. Students (graduated)

- Herbert de Oliveira Rocha (2012-2016). *Verification of Software Systems Based on Code Transformation using Bounded Model Checking* (co-supervisor), first position as lecturer at UFRR.

### M.Sc. Students (graduated)

- Mário Angel Praia Garcia (2016). *Bounded Model Checking of C++ Programs based on the Qt Cross-Platform Framework*.
- Hussama Ibrahim Ismail (2015). *Applying Model Checking to Digital Controllers Implemented in Fixed-Point Processors*, first position as software engineer at FPF.
- Francisco de Assis Pereira Januário (2015). *Verification of Lua Programs in Digital TV Interactive Applications*, first position as lecturer at FUCAPI.
- Alessandro Bezerra Trindade (2015). *Applying SMT-based Verification to Hardware/Software Partitioning in Embedded Systems*, first position as lecturer at UFAM.
- Renato Barbosa Abreu (2014). *Verifying Fixed-Point Digital Filters using SMT-Based Bounded Model Checking*, first position as system engineer at Nokia Institute of Technology.
- Mikhail Yasha Ramalho Gadelha (2013). *Induction-Based Verification for C++ Programs*, first position as lecturer at FUCAPI.

## PROFESSIONAL ACTIVITIES

---

### Competition chair

- *Intel Embedded Systems Contest* of the 6th Brazilian Symposium on Computing Systems Engineering, João Pessoa, PB, Brazil, November 1-4, 2016.

### Program committee member

- *24th Intl. SPIN Symposium on Model Checking of Software*, Santa Barbara, CA, United States, July 13-15, 2017.

- 
- *International Conference on Management Engineering, Software Engineering and Service Sciences*, Wuhan, China, Jan 14-16, 2017.
  - *6th Brazilian Symposium on Computing Systems Engineering*, João Pessoa, PB, Brazil, November 1-4, 2016.
  - *38th Intl. Conference on Software Engineering*, Austin, TX, USA, May 14 - 22, 2016.
  - *22nd Intl. SPIN Symposium on Model Checking of Software*, Stellenbosch, South Africa, August 24-26, 2015.

#### **Jury committee member**

- *Intl. Competition on Software Verification* of the Intl. Conf. on Tools and Algorithms for the Construction and Analysis of Systems, (2013, 2014, and 2016).

#### **Co-organizer/session organizer**

- *3rd ISSNIP Biosignals and Biorobotics Conference*, Manaus, AM, Brazil, January 9-11, 2012.

#### **Reviewer for major journals and conferences**

- IEEE Software, Formal Aspects of Computing, Science of Computer Programming, Journal of Systems and Software, Formal Methods in System Design, The Computer Journal, and LNCS Transactions on Computational Science.
- ASE 2015, CAV 2014, ASE 2013, and ISMVL 2010.

## **PROFESSIONAL TRAINING**

---

- **IPTV Middleware and Applications**, Espial, England, 2007.
- **Digital TV Platform**, NXP Semiconductors, USA, 2007.
- **Certified Scrum Master Training**, Object Mentor, USA, 2006.
- **Agile Planning and Estimation**, Object Mentor, USA, 2006.
- **C/C++ Programming for Windows**, Embedded Systems Technologies, Brazil, 2006.
- **Software Configuration Management**, Siemens Mobile, Germany, 2005.
- **Techniques and Tools for Development on Linux System**, Conectiva, Curitiba, 2005.
- **Introduction to Capability Maturity Model Integration**, Integrated System Diagnostics Brazil, 2005.
- **Linux Administration**, Conectiva, Brazil, 2004.
- **Introduction to Embedded Linux**, Conectiva, Brazil, 2004.
- **Java 2 Micro Edition**, Qualiti Software Processes, Brazil 2004.

## **AWARDS**

---

Productivity in Research Grant from the National Council for Scientific and Technological Development (CNPq), 2016.

One gold and one silver medal in the *5th Intl. Competition on Software Verification at the 22th Intl. Conf. on Tools and Algorithms for the Construction and Analysis of Systems (TACAS'16)*, European Joint Conference on Theory and Practice of Software (ETAPS).

Best paper award in the *V Brazilian Symposium on Computing Systems Engineering*, Brazilian Computer Society (SBC), 2015.

Two gold and two bronze medals in the *4th Intl. Competition on Software Verification at the 21th Intl. Conf. on Tools and Algorithms for the Construction and Analysis of Systems (TACAS'15)*, European Joint Conference on Theory and Practice of Software (ETAPS).

---

One gold medal in the *3rd Intl. Competition on Software Verification at the 20th Intl. Conf. on Tools and Algorithms for the Construction and Analysis of Systems (TACAS'14)*, European Joint Conference on Theory and Practice of Software (ETAPS).

Two silver and three bronze medals in the *2nd Intl. Competition on Software Verification at the 19th Intl. Conf. on Tools and Algorithms for the Construction and Analysis of Systems (TACAS'13)*, European Joint Conference on Theory and Practice of Software (ETAPS).

Two gold and one bronze medals in the *1st Intl. Competition on Software Verification at the 18th Intl. Conf. on Tools and Algorithms for the Construction and Analysis of Systems (TACAS'12)*, European Joint Conference on Theory and Practice of Software (ETAPS).

Distinguished paper award in the *33rd International Conference on Software Engineering (ICSE'11)*, ACM Special Interest Group on Software Engineering (SIGSOFT).

Best paper award in the *23rd ACM Symposium on Applied Computing: Track on Real-Time Systems*, ACM Special Interest Group on Applied Computing (SIGAPP).

ORSAS Graduate Fellowship, *Overseas Research Students Awards Scheme* (ORSAS).

## **PERSONAL**

---

Citizenship: Brazilian and Portuguese.

Languages: Portuguese (native), English (native standard), and German (high-school level).
